VASUDHA CHIGURUPATI, CCDM®

Clinical Data Manager ● Oncology & Medical Devices ● EDC Database Build ● External Data Integration

vasu.chiguru@gmail.com | linkedin.com/in/vchiguru | vasudha-chigurupati.github.io

Authorized to work in the U.S. – No Sponsorship Required

PROFESSIONAL SUMMARY

Certified Clinical Data Manager (CCDM®) with nearly 10 years of end-to-end data management across 35+ Phase I–IV clinical trials and medical device studies in oncology, infectious disease (HIV, COVID-19), endocrinology and cardiovascular. Hands-on EDC developer who builds complete study databases (Captivate EDC) and has advanced Medidata Rave and Medrio experience. Specialist in external data: authoring data transfer specifications, integrating lab, eCOA and IRT data, and overseeing CROs and vendors. Track record of on-time database locks, zero critical findings across FDA inspections, and SOPs and templates adopted department-wide.

TECHNICAL SKILLS

EDC & Data Systems: Captivate EDC (full database build), Medidata Rave (Advanced), Medrio (Advanced), REDCap, ClinSpark, Oracle Clinical 4.6 / OC-RDC, Illume, Veeva Vault

Data Management: Data Transfer Specifications (DTS), DMP, DVP, DRP, eCRF Completion Guidelines, CDASH-compliant CRF design, edit-check specification, UAT, query management, SAE/lab/IRT/eCOA reconciliation, risk-based data management, database lock & closeout

Coding & Standards: MedDRA, WHODrug, CDISC (CDASH, SDTM, ADaM), ICH-GCP, 21 CFR Part 11, FDA/EMA inspection readiness, TMF

Reporting & Analytics: SAS (programming & QC), SQL, Tableau, J-Review, I-Review, Excel (Advanced), Microsoft Office

Stakeholder Management: Sponsors, CROs, central and specialty labs, EDC/eCOA/IRT vendors, global clinical sites, medical and research teams

PROFESSIONAL EXPERIENCE

LABCORP ONCOLOGY | Medical Evidence Generation — **Sep 2025 – Present**

Oncology Clinical Data Manager

Oncology and medical device studies

- **Operational data lead** for oncology evidence-generation studies, owning data management end to end from study build through closeout and serving as the main point of contact for internal and external stakeholders.
- **Sole database developer:** design and build complete study databases in Captivate EDC, including all eCRFs, edit checks, rules and conditional logic.
- **Protocol and system set-up:** contribute to protocol development and configure data capture tools (Captivate EDC, REDCap) to meet study requirements.
- **External data integration:** develop and document clinical data transfer requirements and integrate external clinical data into internal systems for research and analysis.
- **Data oversight:** manage data capture, collection and harmonization processes across sites, laboratories and external partners.
- **Query resolution lead:** act as key liaison between sponsors and laboratories, owning the query resolution process and driving discrepancies to closure.
- **Study documentation:** maintain all study data management documentation, keeping it current and complete throughout the study lifecycle.
- **Insights and reporting:** partner with medical and research teams on data requirements and deliverables, and generate queries, dashboards and analytical reports that support evidence generation.

FRED HUTCHINSON CANCER CENTER | SCHARP, Seattle, WA — **Mar 2021 – Jul 2025**

Clinical Data Manager — **Aug 2022 – Jul 2025**

HIV, COVID-19, Oncology | Phase I–IV global studies

- **Led DTS authoring and maintenance** for 12+ global Phase I–IV studies, aligning lab, eCOA and IRT data with CDISC SDTM; trained teams and vendors on DTS requirements, raising first-pass vendor acceptance by 40%.
- **Directed vendor oversight** for 5 CROs and multiple data providers, using weekly metrics and KPIs to track DTS milestones with 100% on-time delivery.

- **Streamlined external data integration** by mapping DTS to Medidata Rave and Medrio builds, cutting manual reconciliation by 80% and data availability from 5 days to under 24 hours.
- **Managed mid-study DTS change requests** for protocol amendments while holding database lock timelines.
- **Standardized data practices** by authoring DMPs, DVPs and eCRF guidelines adopted site-wide, and contributing to SOPs and DTS templates used department-wide.
- **Zero critical findings** across 3 FDA inspections through ICH-GCP, CDISC/CDASH and 21 CFR Part 11 compliance.
- **Supported adaptive trials** through protocol/SAP reviews, safety data oversight and inspection readiness.

Senior Clinical Data Coordinator **Mar 2021 – Aug 2022**

HIV, COVID-19

- **Led data management operations** for 10+ multi-site trials as primary liaison to 20+ global sites, achieving 99%+ data completeness and 48-hour query resolution across Rave, Medrio and REDCap.
- **Built and validated databases:** co-authored 15+ CDASH-compliant CRFs and designed 100+ edit checks, improving automated query efficiency by 35%; ran UAT for 5 builds with zero post-deployment failures.
- **Accelerated database lock** by 2 weeks through automated QC reports, data listings and standardized documentation.
- **Inspection readiness:** maintained TMF documentation, coordinated CRF translations into 8 languages, and contributed to 12 SOPs/Work Instructions that passed 3 audits with zero findings.
- **Mentored 5 Clinical Data Coordinators** and served as SME for eCOA/ePRO integration and safety reconciliation, resolving 95% of escalated technical issues without vendor support.

AMERICAN SCIENCE LABS **Mar 2016 – Jul 2020**

Senior Clinical Data Coordinator **Feb 2019 – Jul 2020**

Endocrinology (Diabetes)

- Primary point of contact for data management on assigned studies, partnering with CROs, CRAs and site coordinators from start-up through database lock readiness.
- Participated in eCRF design, testing and validation, resolving issues with technical teams before go-live.
- Performed SAE, lab and external vendor data reconciliation, and monitored site and vendor data for completeness and timely query resolution.
- Authored DMPs, edit-check specifications and data validation reports; trained sites and junior coordinators for faster onboarding.

Clinical Data Coordinator **Mar 2016 – Jan 2019**

Endocrinology (Diabetes), Cardiovascular

- Supported eCRF layout, edit-check review and UAT for three Phase III programs.
- Issued and closed 1,000+ EDC queries with a 3-day median turnaround.
- Performed SAE reconciliation and safety listing review with pharmacovigilance.
- Drafted eCRF Completion Guidelines and DMP sections later adopted program-wide; produced weekly query and cleanliness metrics to guide resourcing.

EARLY CAREER

Microbiologist | Hayagreeva Bio Organics Pvt. Ltd., India – probiotics for aquaculture **Mar 2015 – Feb 2016**

Intern | DuPont, Hyderabad, India – promoter expression patterns in Arabidopsis thaliana **Jan 2014 – Jan 2015**

CERTIFICATION & EDUCATION

Certified Clinical Data Manager (CCDM®) | Society for Clinical Data Management (SCDM) **Aug 2025**

M.Tech., Biotechnology | Jawaharlal Nehru Technological University (JNTU) Kakinada, India **2012 – 2014**
